

Have you seen **MOSQUITOES** in Scotland?

We'd love to know about it!

Our **Mosquito Scotland** project aims to identify mosquito populations across Scotland and find out if they are affected by climate change. **You can help us!**

Some examples of Scottish mosquito adults:

And mosquito larvae (which live in standing water):

If you see anything that looks like this, please visit our website to report it and find out more about the project. Simply go to www.mosquito-scotland.com or scan the QR code at the top!
